

Bush Seyferth PLLC will be following the guidelines outlined below to reduce the risk of the spread of COVID-19. These requirements will apply to everyone on the premises, including visitors.

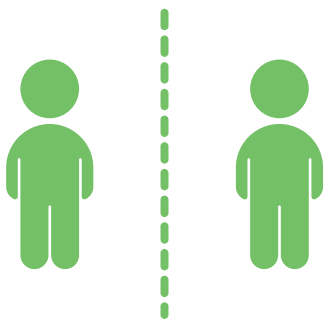

Entering the BSP Office

Masks/face coverings are optional. Note: the health department suggests those who are immunocompromised or otherwise especially vulnerable to wear masks.

The lobby hand sanitizer should be used by anyone entering the office, and each time they enter. Sanitizers are also placed throughout our suite for your convenience.

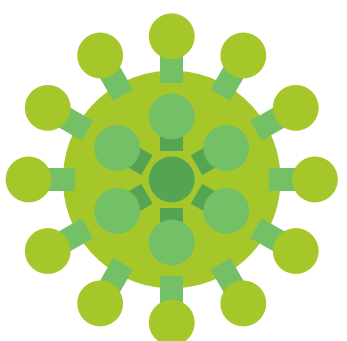

Keep minimum 6-foot distance between people; signage and floor marking are displayed.

At your comfort level: personal contact such as hand-shaking and other contact greetings.

Visitors will be asked health screening questions upon their arrival.

If exhibiting any symptoms associated with COVID-19, that person will NOT be allowed to enter office.

We ask that all visitors practice good hygiene including thorough hand washing and/or hand sanitizing during your time at BSP.
